FISH OR CUT BAIT

Calm Air: [800-839-2256]

Regrets Ornaments

Regrets contains a font for making borders with repeated tile elements (A-Z, and a-z), as well as a variety of floral graphic elements easily reachable via the keyboard. This has been optimized for American keyboards, as that is the lion's share of Ohno customers. We send our sincere apologies to everyone else! The floral elements live at the top of the keyboard (one through hyphen), with their shift counterparts (exclamation point through underscore). We know this makes little sense.
